# PANTRY SOFT™

## The All-In-One Intake Solution for Food Banks & Food Pantries

Running a Food Pantry requires focus, organization, and efficiency. Between organizing volunteers, filing reports, and staying up-to-date with USDA requirements, it can be difficult to keep your organization running smoothly.

With that in mind, Cedar Mountain Software created PantrySOFT™, a desktop application that gives Food Pantry organizers a chance to focus on what really matters: the at-risk members of their community.

Originally created for our local Food Bank in Missoula, Montana, PantrySOFT™ can now be found in hundreds of facilities across 32 states and Canada. Backed by the support and knowledge of Cedar Mountain Software, PantrySOFT™ will bring your organization into the 21st century with our easy-to-use and highly customizable Food Pantry Software.

### MANAGE CLIENT INFORMATION

PantrySOFT™ helps your organization maintain standard client information such as Contact Information, Household Members, demographics, income/expenses and additional household information.

### TRACK VISIT DATA

PantrySOFT™ lets you to Schedule and Record Client Visits and their specifics. Track Inventory distributed as well as the services received by each client across any number of programs you offer; from standard food distribution to financial assistance; from clothing exchanges to much more.

### POWERFUL REPORTING TOOLS

PantrySOFT™ offers complete demographic breakouts of services provided. With reporting tools to help satisfy USDA, TEFAP, Second Harvest and other private and public funding requirements, we make it easy to generate Individual and Household Reports.

PantrySOFT™ was originally created for a food bank in Missoula, Montana and is now being used in over 40 states and in Canada. With a broad range of customizations, PantrySOFT™ is a powerful application that can adapt to specific business requirements.
