

PANTRY SOFT™

**The All-In-One Intake Solution for
Food Banks & Food Pantries**

Running a Food Pantry requires focus, organization, and efficiency. Between organizing volunteers, filing reports, and staying up-to-date with USDA requirements, it can be difficult to keep your organization running smoothly.

With that in mind, Cedar Mountain Software created PantrySOFT™. Originally a desktop application, in 2019, we launched PantrySOFT™ Cloud, a browser based application. This program can run on any computer, tablet, or phone and is accessible by multiple users simultaneously anywhere. We are happy to provide our clients the choice of the desktop or cloud version to best serve their needs. Our software gives Food Pantry organizers a chance to focus on what really matters: the at-risk members of their community.

Originally created for our local Food Bank in Missoula, Montana, PantrySOFT™ can now be found in hundreds of facilities across 40 states and Canada. Backed by the support and knowledge of Cedar Mountain Software, PantrySOFT™ will bring your organization into the 21st century with our easy-to-use and highly customizable Food Pantry Software.
